1 Do you agree with this Privacy Statement?

Yes

2 How do you want your submission published?

Public and anonymous

3 If you are responding on behalf of an organisation, what (from the list below) best describes your organisation?

▉▉▉▉▉▉▉▉▉▉▉▉▉▉▉▉▉▉

4 Your name

▉▉▉▉▉▉▉▉

5 Your email address

▉▉▉▉▉▉▉▉▉▉

6 Would you like to opt-out on being contacted for further information regarding your submission if required?

No

7 Please select how you would like to provide a response.

Complete this survey

8 Thank you for choosing to provide a response to the National Skills Taxonomy Discussion Paper.

Not answered

9 Lessons from existing taxonomies

limitations: use and restoration/long-term productivity of landscape/environment is not accounted for

10 Potential use cases for a National Skills Taxonomy

environments need to be part of circular economy

11 Building a National Skills Taxonomy – design considerations

measure the ecological footprint of user/product

12 Building a National Skills Taxonomy: Implementation considerations

Add costs of environmental restoration to product price (Attitude to nature has to be recognised as a cost of production, skill)
